A SPACE YOU CAN EXPLORE

Ruang 140.

A café. Two possibilities.

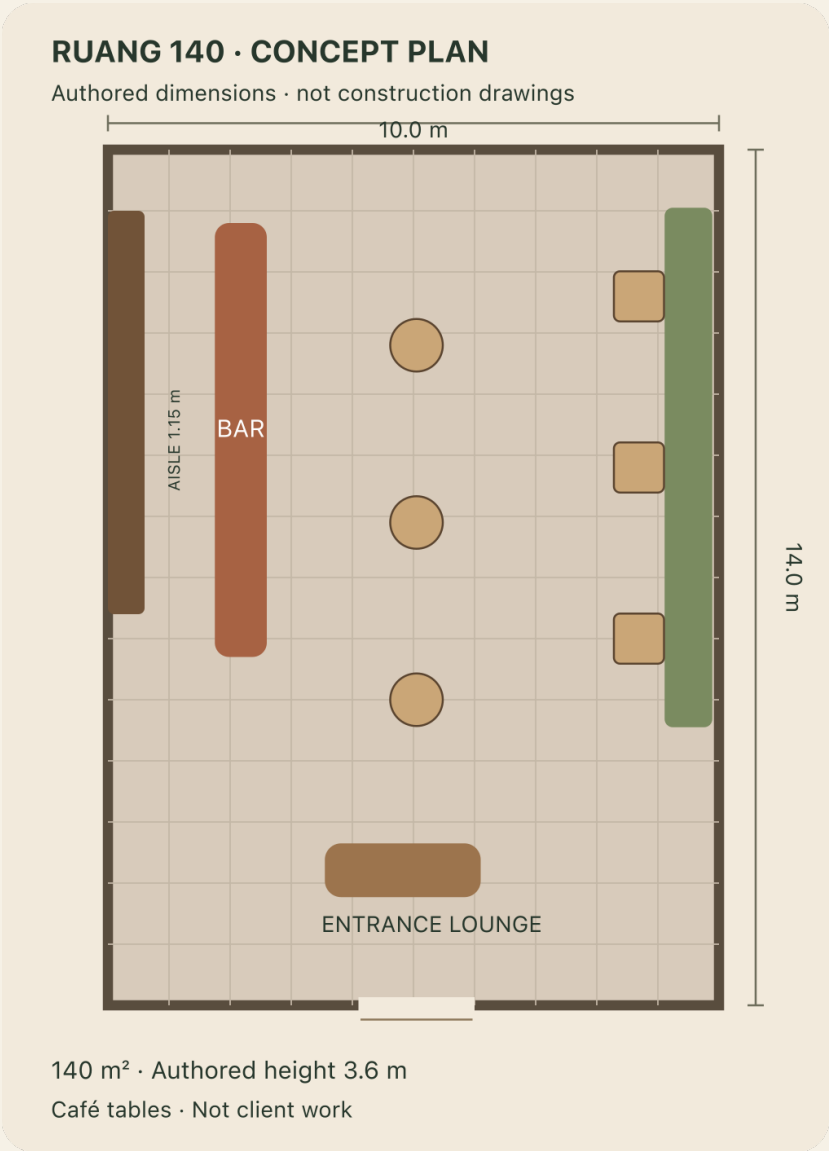

AI CONCEPT ARTWORK / ASPIRATIONAL MOOD

Original fictional concept, not a photograph, client result or measured model. The interactive scene is separately authored and does not exactly reproduce this artwork.

Explore the real 3D scene → idyra.ai/commercial.html

An idea. A coherent space.

An original 140 square metre café with a crafted espresso bar, banquette seating and a communal alternative. The question: how can a merchant present the atmosphere and discuss layout choices before commissioning a fit-out?

AUTHORED CONCEPT PLAN

Dimensions belong to this fictional design. This is a presentation study, not a measured survey, regulatory check or construction drawing.

Try a view. Compare a choice.

Actual browser capture / Original fictional 3D geometry

Actual browser capture / Original fictional 3D geometry

Controls change the actual model. Save a viewing configuration as JSON and reopen it in the demonstration. This is a visualisation, not live monitoring or operational simulation.

Simple from the start.

01 **Share your brief**

Tell us the space type, approximate size and intended use. We request authorised plans and photographs after the signed order.

02 **Agree the scope**

We confirm input quality, outputs, revision rounds, timing and price in a written quotation. Commercial and Home projects are scoped individually.

03 **Review the preview**

Explore the agreed draft privately. Consolidate comments so changes stay clear and the agreed scope remains manageable.

04 **Receive the presentation**

The agreed browser-ready model and presentation files, plus handover instructions. Hosting, access and ongoing changes are agreed separately.

Start with a free 20-minute review.
